

Driving decarbonization and digitalization. Together.

Product Management Intern

Job description

This internship with Infineon Technologies is an opportunity to learn more about the Low Voltage MOSFET market space.

In your new role you will:

- **Conduct price quoting** in all regions considering regional **pricing strategies**, **inventory targets**, and **life cycle guidelines**.
- Assist in **conducting Distributor assets reviews** which include **point of sale (POS)** and **point of purchase (POP)**.
- Assist in developing **regional Market Pricing Plans (MPPs)** governing the purchase price at which regional and global distributors purchase.
- **Evaluate unit volume** and revenue data by technology class using **statistical techniques**.
- This position will help focus the business efforts to **optimize profitability targets** by highlighting **portfolio improvements**
- Support a **inventory review** and **recommend actions**

Profile

You are best equipped for this task if you have:

- **Pursuing a Bachelor's degree** in **Business Administration, Accounting, Economics** or equivalent
- You are **quality oriented** and remain focused on solutions
- **Team player attitude** and **share information** comprehensively, effectively and you are able to quickly establish successful **cooperation with all colleagues**
- **Experience with the following:** Microsoft Outlook, Microsoft Excel, Microsoft Access, Microsoft PowerPoint, or Tableau

Why Us

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

Infineon Technologies Americas Corp., is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your onboarding documents.

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.

Wage range that the company expects to pay for a qualified candidate:

Minimum of \$26.00 per hour

Maximum of \$32.50 per hour

Hourly rate will depend on the highest level of education completed.
