

Driving decarbonization and digitalization. Together.

Graduate - Validation Engineer

Job description

This opening is part of Infineon's Graduate Program. The Graduate Program gives you the opportunity to gain enriching and diverse experiences and work side by side with experienced leaders to power your career. This position will be onsite in Andover, MA.

In your new role you will:

- Be responsible for **bench validation** of **mixed-signal power ICs**
- Develop innovative **testing methods**, and concepts, and **optimize validation** using automation
- Define **bench validation** plan and **equipment setups**
- **Analyze data** and work with design, test and applications engineering design to **analyze results** and root cause bugs

Profile

You are best equipped for this task if you are/have:

- Graduated with a BS/MS in Electrical Engineering or other related field in the last year
- Ability to start work on-site June or July 2024
- Basic understanding of both **analog and digital circuits**
- **Power electronics** background is a plus
- Familiarity with **benchtop test equipment**: Supplies, function generators, oscilloscopes, multimeters
- Experience in **scripting languages** (Labview, Python, etc)
- **US citizen or green card holder**: This position requires access to documentation that is controlled by the export laws of the United States. Candidates are required to provide proof of either US citizenship, Permanent US residency, or classification as a protected individual as defined in 8USC 1324b(a)(3).

Infineon **Power & Sensor Systems (PSS)** semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world. IR HiRel, part of Infineon PSS, is a leader in high-reliability, rad hard power management and RF solutions for space and other extreme environments.

Our leading-edge power devices make chargers, adapters, power sources and lighting systems smarter, smaller, lighter and more energy-efficient. Our trusted sensors increase the context sensitivity of "things" and systems such as HMI, and our RF chips power fast and reliable data communication.

Why Us

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.

IR HiRel Products Inc., is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your onboarding documents.

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically

during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
