## Senior Project Manager (f/m/div)

### Job description

Are you a Project Manager, who has a passion for technology, teamwork and communication? Do you enjoy motivating your team members to achieve the best outcome for the customer and the company? As a Senior Project Manager at Infineon, you will steer various projects within our Power & Sensor System (PSS) Division and accompany the whole IC development lifecycle. This position is part of Infineon's Project Management Career Path. It provides an attractive career opportunity for employees who focus on managing projects and functional leadership of project team members.

In your new role you will:

- **Manage projects** and/ or sub projects **with higher complexity, risk, impact and reach**
- **Initiate, plan, lead and coordinate IC development projects** (Hardware) in the field of power management and ASIC's including team setup, resource planning, timeline, work packages, budget planning, controlling of internal R&D resources and external design partners, and documentation
- **Coordinate project activities across different sites** (e.g. Munich, Duisburg, Singapore & Villach), handle external and internal silicon foundries, select internal and external assembly and test-houses
- Continuously **focus on project quality, assess progress** and ensure that goals are met even in the face of challenges (e.g. time-to-market, cost, scope, quality targets)
- **Manage and control the entire project life-cycle** and ensure hand-over to sustaining function
- **Establish trusted relationships** and a network with a broad base of internal and external stakeholders as well as worldwide customers and actively manage their interests

### Profile

You accept responsibility for common goals and put the team's results above your own interests. In addition, you remain aware of the big picture even in complex situations and take decisions despite uncertain circumstances. Furthermore, you are personally committed to the customer's concerns and award them a high priority.

Beyond, you are best equipped for this task if you have:

- A university degree in **Electrical Engineering, Microelectronics, Physics** or related studies combined with a **good technical understanding**, ideally in the development of mixed signal IC's

### At a glance

Location: **Munich (Germany)**  
Job ID: **HRC0730201**  
Start date: **Jun 01, 2024**  
Entry level: **5+ years**  
Type: **Full time**  
Contract: **Permanent**

### Contact

Clara Bartle

- At least **6 years of relevant professional work experience** in the field of **semiconductor products** and there 4 years of leading projects and project teams
- In-depth **project management knowledge** for analog mixed signal IC product developments in terms of project initiation, planning and closing including reporting and documentation
- The **ability to understand and structure complex project situations**; moderate and manage critical project situations; consolidate and present those to senior management level; perform in front of customers also in challenging situations
- The **willingness to take responsibility** within Infineon and **to travel on a regular basis** and/or as the need arises within Europe, to Asia and the United States
- **Advanced technical leadership skills**, excellent communication skills and intercultural competencies, excellent understanding of the semiconductor 'environment'
- Ideally an official **project management certification** (e.g. IPMA)
- **Fluent English** skills, German skills are helpful

## Benefits

- **Munich:** Coaching, mentoring networking possibilities; Wide range of training offers & planning of career development; International assignments; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Flexible working conditions; Home office options; Part-time work possible (also during parental leave); Sabbatical; On-site creche and kindergarden with 220 spots, open until 5:30pm; Holiday child care; On-site social counselling and works doctor; Health promotion programs; On-site gym, jogging paths, beachvolleyball, tennis & soccer court; On-site canteen; Private insurance offers; Wage payment in case of sick leave; Corporate pension benefits; Flexible transition into retirement ; Performance bonus; Reduced price for public transport and very own S-Bahn station; Access for wheelchairs; Possibility to work remotely from abroad (EU)

## Why Us

### Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

The **PSS division** powers decarbonization and digitalization with a wide range of energy-efficient and digital solutions. PSS semiconductors help avoid carbon emissions, use resources sustainably, manage power effectively and intelligently, give 'things' smart senses, and process data quickly and reliably. The portfolio includes power, connectivity, RF, and sensor system technologies to develop smaller, lighter, smarter, and more efficient solutions for consumer devices, smart home/building applications, robotics, computing and data centers, charging devices, power tools, and much more.

The next generation of silicon and wide-bandgap (SiC and GaN) solutions provides unparalleled performance and reliability for 5G, big data, and renewable energy applications. These materials are paving the way for further energy and carbon savings. Highly precise XENSIV sensor solutions are enabling IoT devices to react intuitively to their surroundings for seamless user interactions while audio amplifiers bring exceptional sound experiences to smart speakers and other audio use cases.

### We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal

opportunities. We base our recruiting decisions on the applicant 's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
