

Driving decarbonization and digitalization. Together.

Project Manager

Job description

In your new role you will:

- Manage and execute defined transfer and conversion projects and sub-projects to achieve strategic project objectives: Scope, Budget and Time to project completion
- Manage a medium sized project team with members outside the direct working environment to structure the project organization and define clear roles & responsibilities as well as the relevant interfaces
- Coordinate and prepare Transfer and Conversion projects based on technical feasibility, product volume forecast in close alignment with the transfer portfolio management, division, technology experts and capacity planning
- Coordinate the required subprojects of frontend technology transfer, test enabling, front-end-back-end interaction, backend readiness and product qualification and release to ensure the ramp readiness of the receiving Fab
- Organize reporting and meeting structure within the project; provide regular project status, appropriate and timely escalation of critical topics
- Coordinate and prepare Change Requests for the projects

Profile

You are best equipped for this task if you have:

- Degree in Electrical Engineering, Mechanical Engineering, Industrial Engineering, Chemistry or Physics or a comparable qualification.
- More than 5 years of experience in the semiconductor industry with 2 years of experience in leading projects.

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
