

Driving decarbonization and digitalization. Together.

Senior Project Manager Discrete Product Development for E-Mobility (f/m/div)

Job description

You want to cooperate with renowned players in the automotive segment? You would love to manage big projects internationally and dive deeply into technical topics? The we have just the right position for you! As Senior Project Manager for Discrete Product Development you will develop ideas to their full implementation in close collaboration with the customer! Come and join us as to work on the leading edge of the promising xEV movement and take the product development of our power devices products to the next level.

In your new role you will:

- **Lead multiple development projects** in the field of **automotive E-Mobility** with significant complexity, risk, reach and noticeable impact
- **Form, guide and motivate diverse, cross functional project teams**; you create energy and commitment by explaining and providing opportunities for your team members
- **Maintain the overview and understanding of technical interdependencies** in order to proactively identify the most complex problems; you will lead others to think also beyond existing solutions to solve them
- In particular, you will **conduct a forward-looking risk management**; in close cooperation with your stakeholders, you will identify possible mitigation measures and/or backup scenarios
- **Assume full responsibility for your projects by continuously assessing progress and adjusting the project plan** within the given boundary conditions to ensure that goals are met even in the face of challenges; this also involves actively identifying and managing significant changes to the existing project agreement
- **Actively manage your key stakeholders in an international environment**; this regularly involves negotiating as well as convincing others to accept positions or trade-offs

This position is part of the Project Management Career Path. It provides an attractive career opportunity for employees who focus on managing projects and functional leadership of project team members.

Profile

You are a self-motivated person who strives for performance, quality, efficiency, and continuous improvement. As a role model for open communication and feedback, you know how to successfully align with various people internationally. Your structured working style helps you to follow the big picture and contribute to the business success of the organization.

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

– Automotive (ATV) shapes the future of mobility with microelectronics enabling clean, safe, and smart cars –

Our semiconductors are essential for supporting the automotive megatrends: electromobility, automated driving, connectivity, and advanced security. They link the real and the digital world, driving the ever-advancing pace of automotive digitalization. Infineon ATV is the number one semiconductor partner in the fast-changing automotive world, based on our system knowledge and our passion for innovation and quality.
