## Senior Project Manager Discrete Product Development for E-Mobility (f/m/div)

### Job description

You want to cooperate with renowned players in the automotive segment and would love to manage big projects internationally and dive deeply into technical topics? Then, we have just the right position for you! As Senior Project Manager for Discrete Product Development, you will develop ideas to their full implementation in close collaboration with the customer! Come and join us as to work on the leading edge of the promising xEV movement and take the product development of our power devices products to the next level. This position is part of the Project Management Career Path. It provides an attractive career opportunity for employees who focus on managing projects and functional leadership of project team members.

In your new role you will be responsible for the following tasks:

- **Lead multiple development projects** in the field of **automotive E-Mobility** with significant complexity, risk, reach and noticeable impact
- **Form, guide and motivate diverse, cross functional project teams;** you create energy and commitment by explaining and providing opportunities for your team members
- **Maintain the overview and understanding of technical interdependencies** in order to proactively identify the most complex problems; you will lead others to think also beyond existing solutions to solve them
- In particular, you will **conduct a forward-looking risk management;** in close cooperation with your stakeholders, you will identify possible mitigation measures and/or backup scenarios
- **Assume full responsibility for your projects by continuously assessing progress and adjusting the project plan** within the given boundary conditions to ensure that goals are met even in the face of challenges; this also involves actively identifying and managing significant changes to the existing project agreement
- **Actively manage your key stakeholders in an international environment;** this regularly involves negotiating as well as convincing others to accept positions or trade-offs
