

Annual General Meeting of Infineon Technologies AG

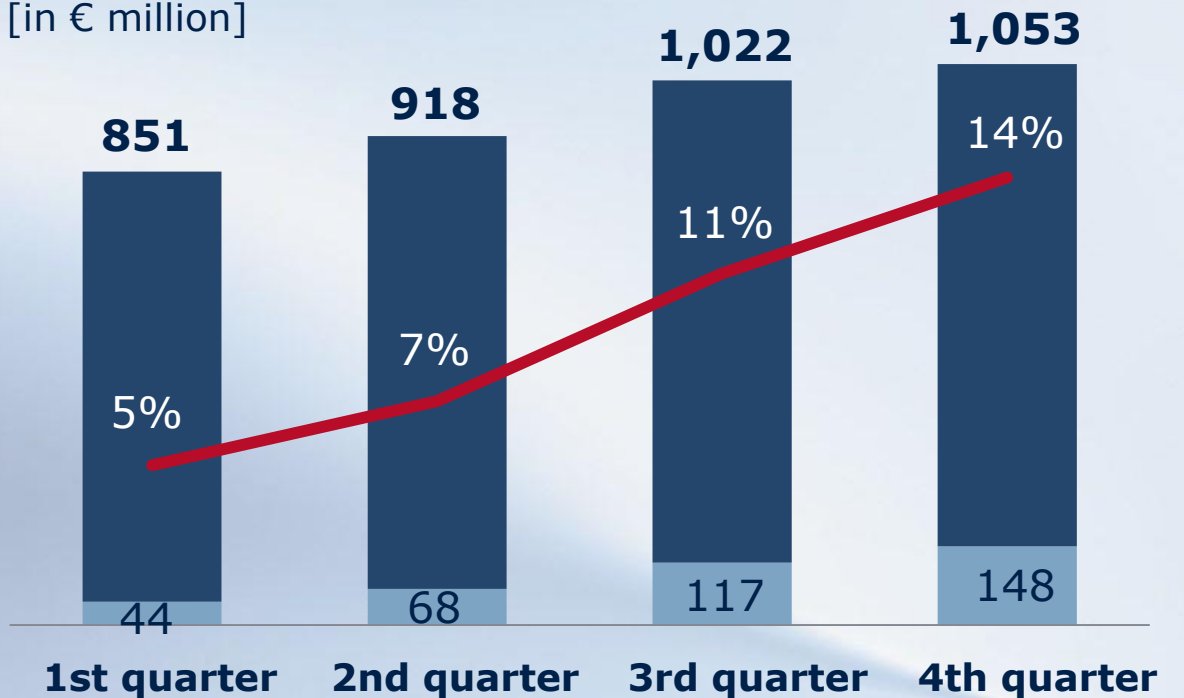

Dr. Reinhard Ploss
Chief Executive Officer

Munich, February 13, 2014

Profitable Even When Demand Was At Its Low Point

[in € million]

€3,843 million
Revenue

€377 million
Segment Result

9.8%
Segment Result Margin

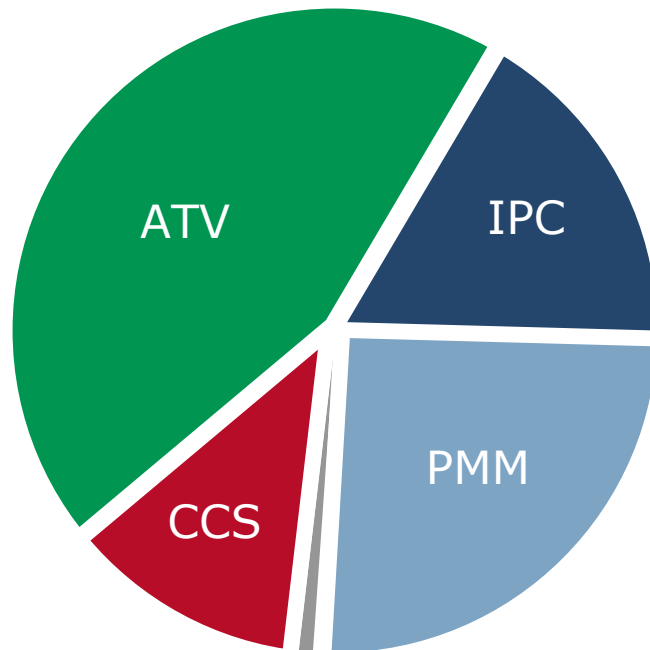

■ Revenue ■ Segment Result — Segment Result Margin

Increased Revenue with Four Strong Segments

Automotive

Chip Card
& Security

Industrial Power
Control

Power
Management &
Multimarket

Leading Positions in All Important Markets

Automotive Electronics

Power Semiconductors

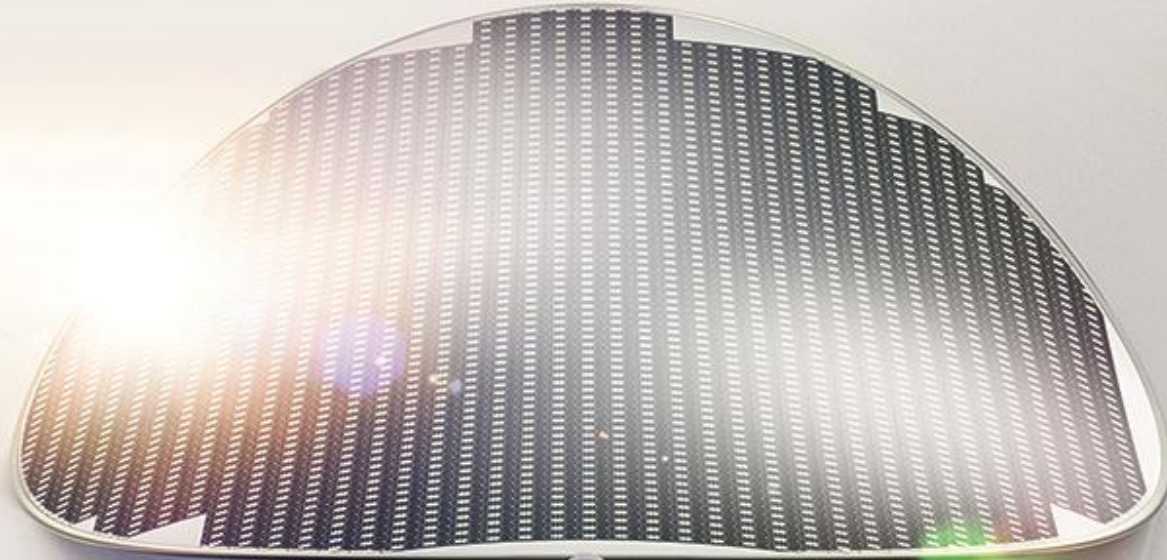

Chip Cards

Electromobility with Semiconductors from Infineon

Competitive Advantage with 300 mm Thin Wafers

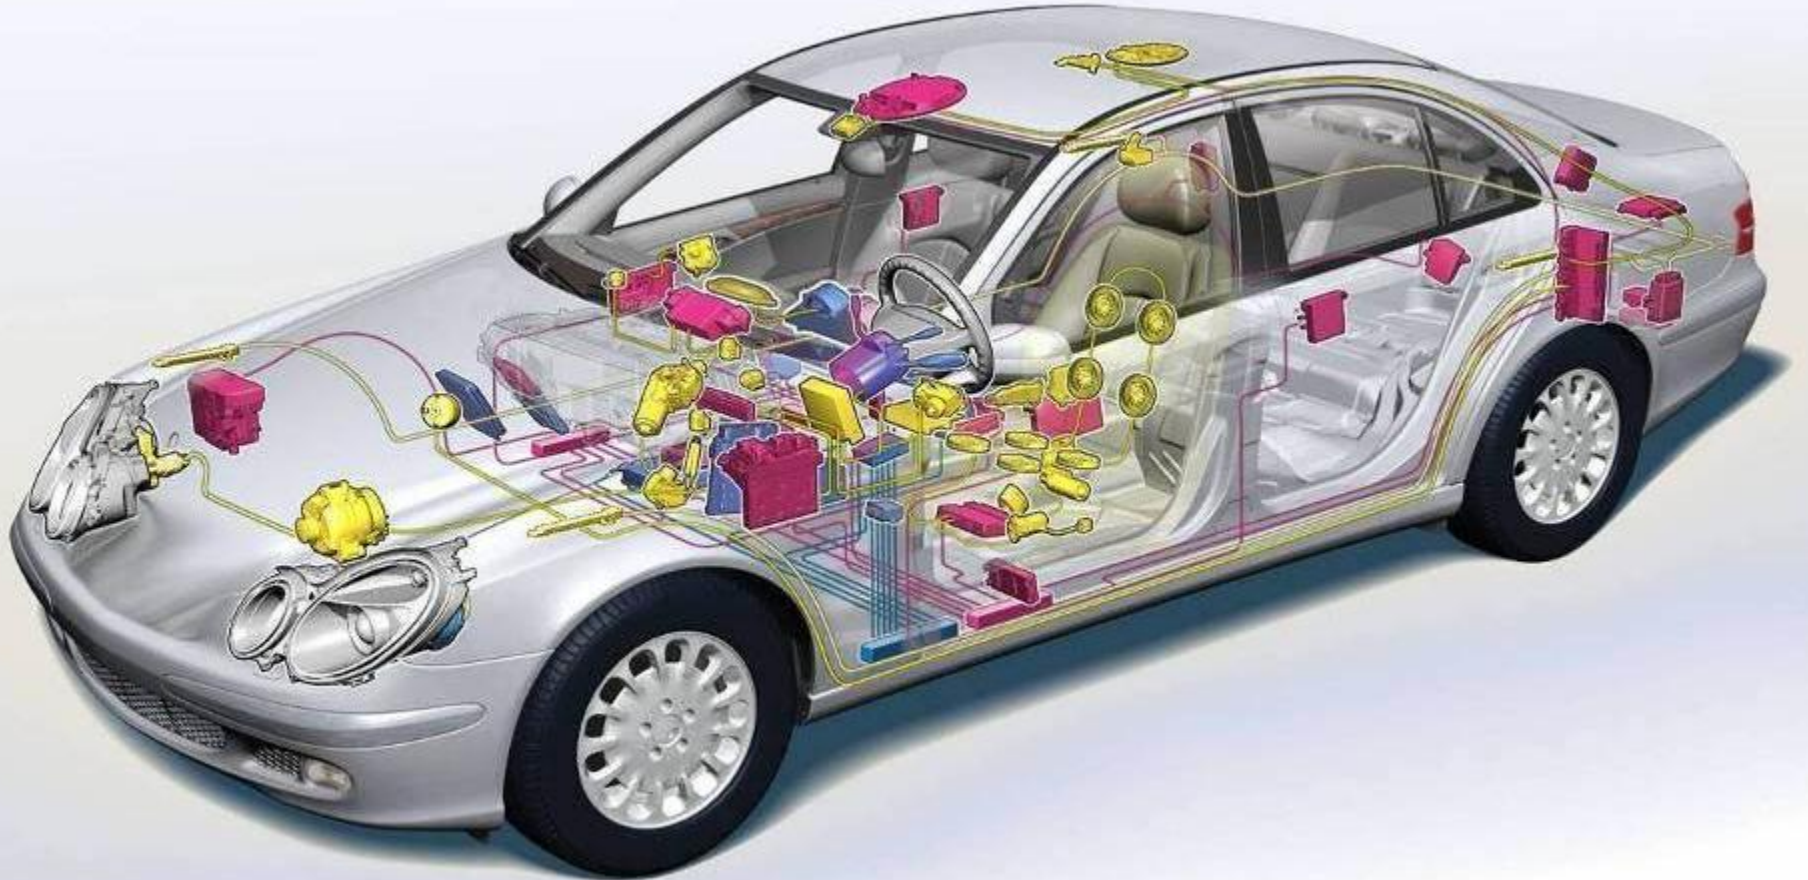

On Track to Becoming a "Local Citizen" in China

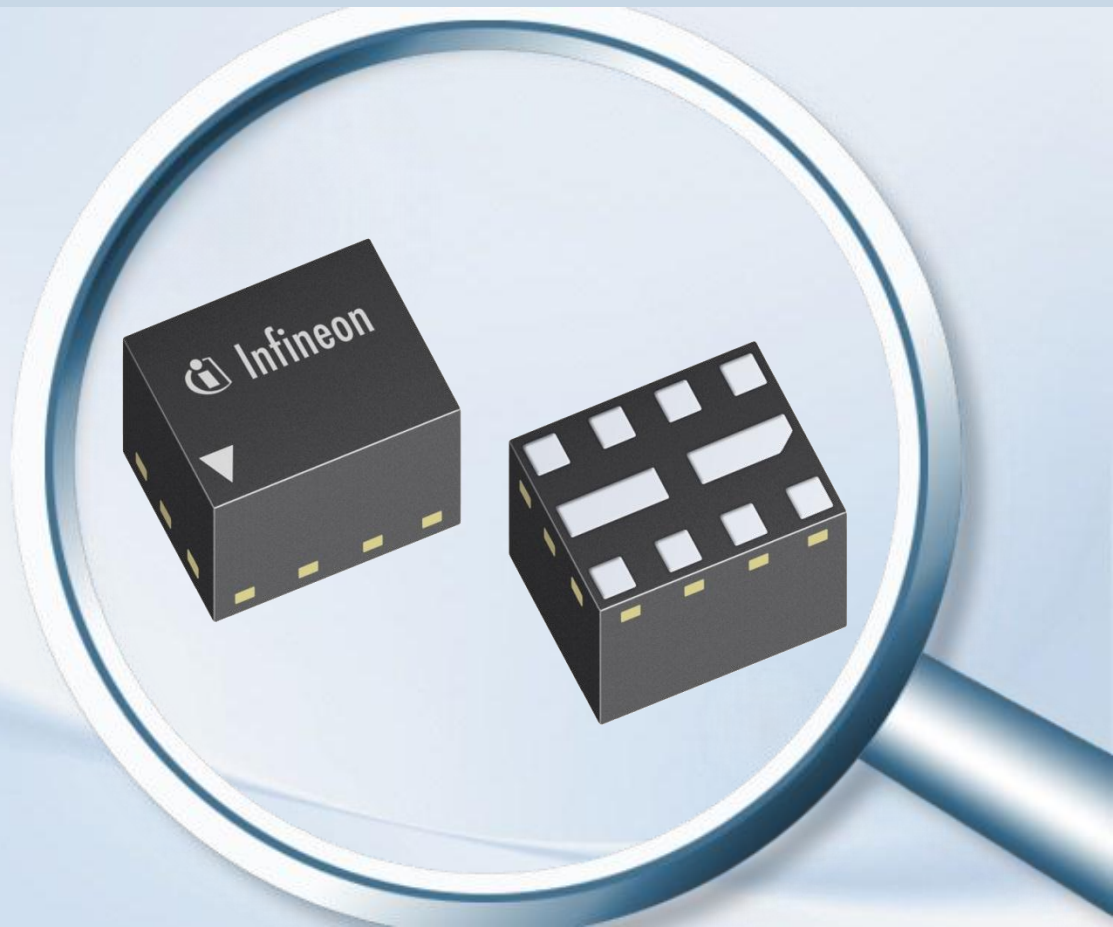

Firmly Rooted in Europe

Understanding the System of the Car

The World's Smallest Navigation Module

LED Headlights Provide Anti-Glare Light

Fewer Emissions with Semiconductors from Infineon

1.2 million tonnes

CO₂ emissions¹⁾

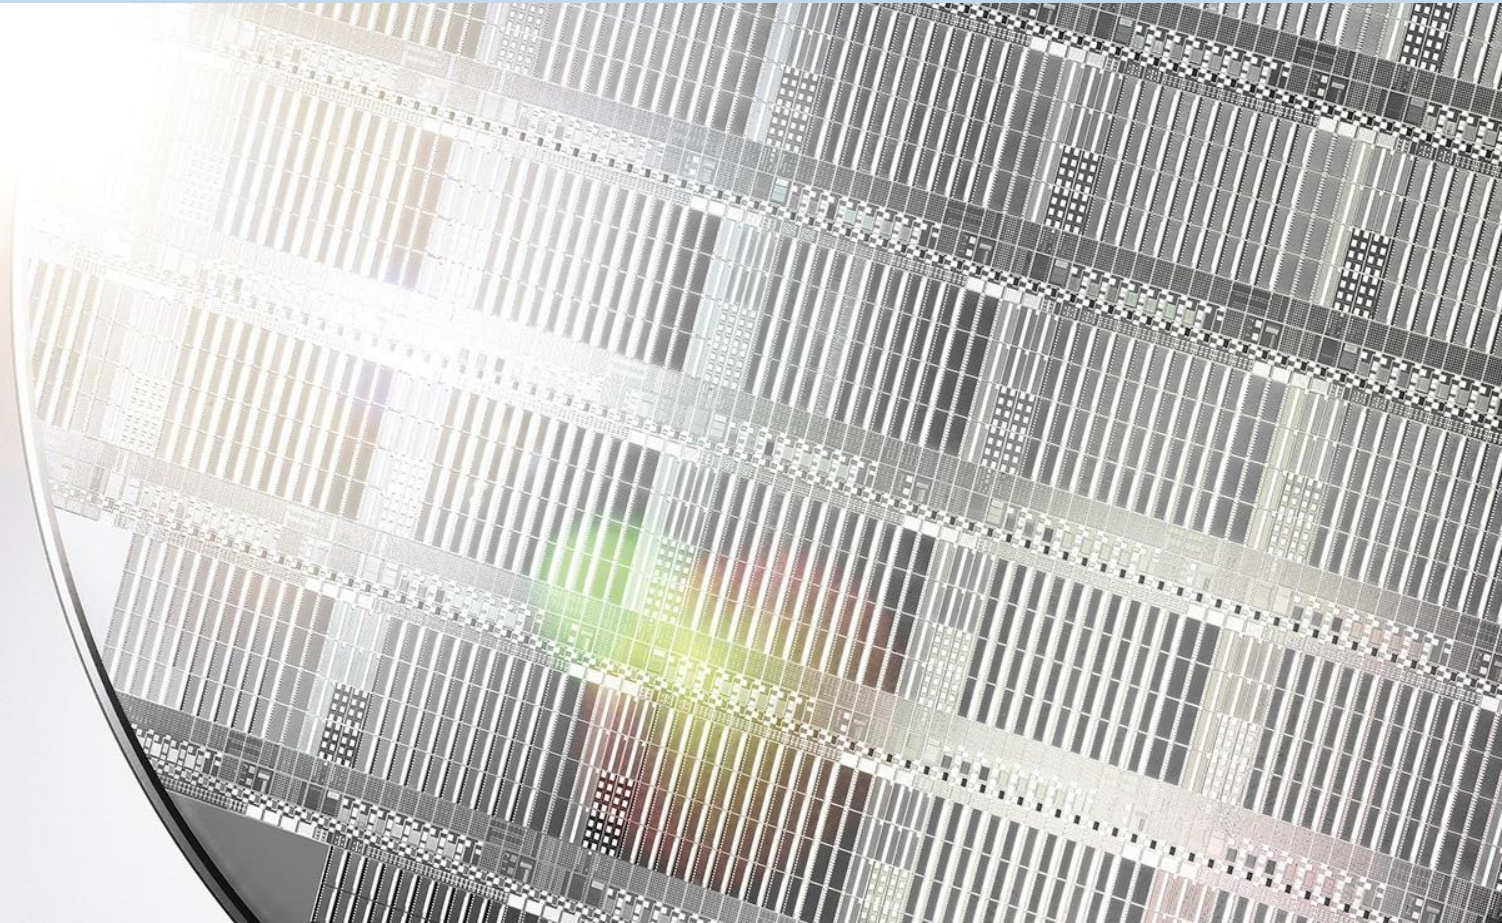

Ratio
1:13

**Over
15.8
million tonnes**

CO₂ savings²⁾

Net environmental benefit:
CO₂ reduction of more than 14.6 million tonnes

We are Ready for Tomorrow

ENERGY EFFICIENCY MOBILITY SECURITY

Innovative semiconductor solutions for energy efficiency, mobility and security.
